# HISTORICAL ROUTES OF LAND AND WATER

A RURAL LANDSCAPE TO SAFEGUARD

## BETWEEN RIVERS, CANALS AND THE LAGOON

Itinerary suggested by FIAB S. Donà di Piave VIVILABICI - WWW.VIVILABICI.IT

**This itinerary that runs for approximately 30 km and mostly develops on dirt roads or paved routes covered by gravel.**

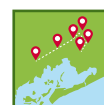

The overall length of these dirt roads is approximately 22 km, as a consequence it is advisable to use city bikes or mountain bikes. The short itinerary is one of the most interesting routes because it allows holiday cyclists to get a glimpse of the Laguna Nord of Venice, and to cross the Natural Park of the Sile river and it is important from a historical-cultural point of view because it

offers the opportunity to pedal on a segment of an ancient Roman road (Via Claudia Augusta) and to visit the National Archaeological Museum of Altino.

**DEPARTURE AND ARRIVAL: PONTEGRANDI (SUBURB OF QUARTO D'ALTINO, VENICE), PARKING SPACE OPPOSITE "LOCANDA DEI PORTEGRANDI".**
